📁 Projects

articlew, *Write English Better* ⬈   present
articlew is an AI-powered web application designed to help users improve their English writing and vocabulary. It generates contextual sentences based on a given word using AI and curated articles, allowing users to learn words in different contexts. The platform integrates **FastAPI, Next.js, and MongoDB**, ensuring efficient data processing and a seamless user experience. It also features periodic web crawling to update its database with fresh sentences.

Gloosy ⬈
Worked as a freelance developer. Created auth pages and Service Creation Steps using Firebase and Next JS.
